## A Reputation Earned by High Quality Industrial Valves

**Wide Selection of Valves**

**Single Source Provider**

**We either have the valve already in stock, or have the resources to get it to you fast.**

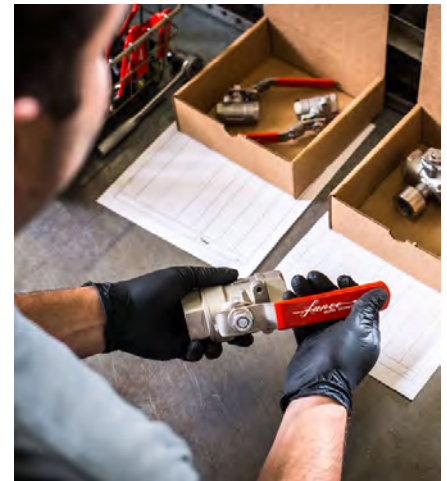

We know you have options when it comes to purchasing industrial valves. With so many choices out there, how do you know if your getting the best product?

You're busy, and the last thing you want to do is spend your time hunting for the right industrial valves that you depend on to keep you operation running smoothly. Our product catalog contains a selection of valves for nearly any application, with different materials, pressure ratings, and various options available. If we don't have what you're looking for, we'll spend our time finding it for you.

**We don't just sell valves – we offer peace of mind that only comes with dependable quality.**

### Custom Sourcing

There are a number of standard industrial valves that we carry in inventory, but we specialize in our ability to source specialized solutions needed for unique applications. Our vast experience, knowledge, and large network of suppliers allows us to meet nearly any need

## A Solution for Every Customer, Experienced in Nearly Every Industry

**Pharmaceuticals  
Oil & Gas Refining  
Oil Drilling Water  
Treatment**

**Food Processing  
Chemical Processing  
Mining  
Manufacturing**

Manufacturer & Supplier of High Quality Industrial Valves

**Brass & Bronze Valves**

**Forged Brass Ball Valves**

3-Piece, Full Port, 1000 WOG, NPT Ends or Socket Weld Ends	3-Piece, Forged Steel, Class 1500, 3600 WOG, Mounting Pad Extended Socket Weld Ends (C-333S) Extended Socket Weld End x NPT End (C-333ST) ¼"-1½"-Full Port, 2" -Standard Port	3-Piece, Forged Steel, Class 2500 6000 WOG, Mounting Pad Extended Socket Weld Ends (C-336S) Extended Socket Weld End x NPT End (C-336ST) ¼"-1½"-Full Port, 2" -Standard Port	2-Piece, Flanged, Class 150, Full Port, Flanged Ends Mounting Pad (C-235F-F -Fire-safe designed)

## Steam Applications

Steam Service valves are provided with high temperature seats and a graphite stem packing for use with saturated steam up to 250 psig. High temperature end connector gaskets are also provided for 1-1/4 – 2" sizes. Comes with a Stainless Steel ID Tag fastened to the mounting pads.

## Safety Exhaust Valves

Available in Stainless Steel, Carbon Steel and Bronze. 1/4" to 2"  
Automatic Drain Valves are an important safety feature for compressed air applications with downstream pneumatic equipment.  
A conventional shut off valve can trap compressed air in pneumatic equipment, which could create a potentially dangerous situation. Lance Automatic Drain Valves allow the down stream pressure to be released when the valve is in the closed, "off" position.
